

SSM will celebrate May Day working, with start of a campaign for local economic and social councils.

On May 1, at noon SSM will hold a press conference to officially promote the campaign for establishing of local economic and social councils. At the same time press conference was held in nine major cities in the country.

SSM in celebrating this holiday of workers focused on campaigning for some specific issues of concern to workers and for improve of their economic and social position. Our results are in the same time challenge to continue the practice of action of SSM regarding Labor Day.
